OCS/Programming Branch   6 Jan 1964

[   ], Chief, on 6 Jan 64 recommended strongly in favor of centralization of programming effort for computer work in view of inefficiency and duplication when open shop programming is not adequately supervised by experienced programmers and when non-programmers are ~~allowed~~ permitted to decide on specific computers for certain jobs.

<u>Production Division</u>, [   ] Chief   STAT

Dec 1963, all systems used in excess of basic use charges: 1401 by 200 hrs., 1410 by 218 hrs., and 7090 by 176 hrs.
Dec 1963 report dated 7 Jan 1964

A <u>Monthly Report on Computer Utilization</u>, instituted after OCS established showed hours of use, including down time for maintenance, idle time and time loss for customer or machine error.

To accomplish this production each system manned in excess of 355 hours.

Approx 19 hrs of use by external agencies (USA/Ch Sig Off).

Dec 1963 comparative use: DDS&T Offices. 306.1 ~~309~~ hrs.
                                      DD/I   16~~9~~
                                      DD/S   9~~7~~
